

ABOUT THE BOOK

The topic of tithing and giving in the Church is viewed with a lot of suspicion and misunderstanding because of the abuse the subject has undergone in the hands of ungodly and covetous ministers. This has led many saints to view any minister teaching on tithing and giving as one who is only interested in robbing them of their hard earned wealth.

In spite of the abuse, tithing and giving still remains an integral part of what every man and woman needs to do and more so those who are members of the Body of Christ.

It is therefore important for every person to understand what the Bible has to say about the subject and obey God in the same.

This book has been written to help you come to a deeper understanding of tithing and giving, enable you practice the same and receive the blessing God has for those who honour him through their tithes and offerings.

I encourage you to read this book with an open heart as God will speak to you through it.
